# FALMATA DAWANO

Software Developer | Full-stack Web Developer

## PROFESSIONAL OVERVIEW

I am a Software Engineer, Full-Stack Web Developer, and Web Designer with an experience developing software using agile methodologies. At Zeefasys, I spent my time implementing unique software features using various technology stacks and being a bridge between offshore engineering teams and clients. I am currently seeking my next opportunity in an organization where I am able to excel as a Software Engineer/ Full-Stack Web Developer.

## PROFESSIONAL EXPERIENCE

### Software Developer

Zeefasys, Eden Prairie, MN | April 2020 - Present

Develop software using agile methodology, utilizing tools such as Git, Github, BitBucket, and Jira. Build responsive modern UIs using ReactJs and cross platform mobile applications using React Native. Host static websites, build serverless backends, and deploy web applications using AWS.

### Coding Instructor

Everyone Should Code LLC, Eden Prairie, MN | Oct 2019 - Oct 2020

Teach, train, and encourage young coders to learn the fundamentals of computer science. Develop custom curriculum for childcare centres and youth organizations; and manage contracts and new clients.

### Coding Teacher

Youth Enrichment League, Carver MN| Oct 2018 - May 2019

Work with elementary school students teaching the fundamentals of programming. Create custom curriculum and teaching methods. Design creative and interactive app and game projects for various age groups.

## EDUCATION

### Fullstack Web Development Boot-Camp

Lambda School | 2019 - 2020

### High School Diploma

Eden Prairie High School | 2011 - 2015
